

Review

Hello everyone my name is M.Rajinikanth Reddy. I am studying B tech 3rd year cse(cyber security) in Rajeev Gandhi memorial college of engineering and technology. I am selected in the secure 2k25 by savory minds company. The secure 2k25 scholarship is very helpful to the students. In the secure 2k25 has conducted a interview in that interview I am selected I am very happy to share my feelings. It was started for the student success by a company not for a college. It was started by amith sir, chairman of savory minds. In the secure 2k25 there is initiative goals by learning the hands on experiments real domain knowledge bring the gap between college and industry. I am before joining the situation I am searching for the coaching centers . in the coaching centers there is no content. I am hear about other places like in ammerpet there is some scams are running, the common problem is no proper placements, mixed batches for example students from different years together ,low quality teaching, high fees but poor outcomes. The secure 2k25 is diff compare with other coaching centers and b tech colleges(4 years and in the months of training)

Differences in:

- Content quality
- Hands on practical learning
- Multiple domain training
- There is high level teaching style of amith sir
- Research based,advanced learning approach

The domains are learning

- Socanalyst
- Penetration testing
- Bug bounty
- Cyber automation
- Blockchain
- Ai,meachine learning,generative ai

I am improving my skills like

- Communication skills
- Interview preparation
- Technical skills
- Overall confidence

Amith sir will focuses the every student.

There is content in advanced tools, there is no language barriers anyone from any stream, college, or background can learn from zero level. The affordability and value is Savory Minds offers this at a very affordable price, EMI options are available. This is not profit drive initiative its to help students.

Students often spend money on less valuable things here you gain knowledge and skills that are truly worth the investment. I am not happy before joining, now I am feeling very happy. I have experienced in content of domains and technical skills. The secure 2k25 made a real engineer the secure 2k25 was started for students happiness

Amith sir started this after visiting colleges and seeing students struggles. The goal was to bring real domain knowledge, hands on learning, and quality education. This is a mission to change the education system, not just a business.

I am feel proud to be a part of secure 2k25 and thanks for amith sir and Savory Minds for this giving wonderful opportunity to me

Thanks for IQAC team for giving 10 times extra content.
