

My SECURE 2K25 Experience - Jashuva Daniel

Hey, Everyone!

I'm Jashuva Daniel pursuing my graduation in B.Tech as a Cybersecurity student (3rd year) at RGM College in Nandyal.

I'd like to share my experience in the journey as a trainee in the SECURE 2K25 program, a scholarship initiative by Amith Sir, CEO of SAVORY MINDS, a cybersecurity company.

You might be wondering what is SECURE 2K25?

Let me clarify. It's an initiative where students can learn multiple domains based on their interests at an affordable price. It's independent of any college. The main motto is to provide real-world skills that students don't typically gain through regular academic courses.

Let me talk about some problems students face in academics:

- Outdated syllabus, despite our parents' hard-earned savings.
- The focus is only on exams and rote learning.
- Only top scorers receive good treatment from faculty what about the rest?
- Lack of proper guidance. Are we studying just to get a job?
- Placement promises lead to rejection in reality.
- No skill development; they just tell us to "learn from YouTube."

In SECURE 2K25, students gain hands-on experience with real domain knowledge.

You know what?

Amith Sir is our mentor. He teaches us domains himself, is very friendly, and patiently explains until we understand.

Before joining, I explored other platforms. They were expensive and lacked proper mentorship. It felt just like my college. But here, its completely different.

Why is SECURE 2K25 different?

- Excellent content curated by a dedicated team even GPT cant match it sometimes!
- 90% hands-on practical learning.
- Training in multiple domains.

Domains Im learning:

- SOC Analyst
- Penetration Testing
- Bug Bounty
- Cyber Automation
- Blockchain
- AI, Machine Learning, Generative AI
- MERN Stack

Additional skills Im learning:

- Communication skills
- Programming (Python, Java, HTML, JS, CSS, Bash)
- Korean language
- Reasoning and Aptitude

The total cost is just 90K. Compared to other platforms charging around 6 lakhs, this is the best

investment. Its affordable, payable in installments, and theres no pressure.

Ive gained communication skills, confidence, and a clearer career path.

Amith Sirs initiativevisiting colleges and observing student struggleswas truly inspiring. The goal is real domain knowledge, hands-on learning, and quality education. This is a mission to change the education systemnot a business.

Why do I pay? I pay with the thought that I must work hard and justify my mothers efforts.

The trust between Amith Sir and me defines a special bond.

Im grateful and thank God and Amith Sir for this opportunity to be part of SECURE 2K25.

Special thanks to Mr. Amith Kumar Sir and Savory Minds.
