

SECURE2K25

Good afternoon,

Hi I am naga pavan siddhardha from Kurnool district, I joined in "secure2k25" . Its is very useful for the student to developing their carrier, is useful to develop their feature by the practical knowledge in industrial wished . we say heartfully thanks to the "**Amith kumar**" sir they visited the colleges to concentrate on loop holes in every collage to think for the students to develop the practical knowledge for every student . They prepared a plan for students the invention is "**Secure2k25** ".Its develop the student in technical and also develop they communication skills in combo of domains to learn the theory and practical knowledge, and project in their domains , internship to co-labrate and develop in industrial way .

The class is easy to understand the topic for student and sir's also interact with student very friendly and help in find the errors in program to clarify students .

Thank you for given this opportunity to "savory minds"
